

# United States Senate

WASHINGTON, DC 20510

October 27, 2017

Donald J. Trump  
President of the United States  
The White House  
1600 Pennsylvania Avenue NW  
Washington, D.C. 20500

Dear President Trump:

In the PBS *Frontline* documentary “*War on the EPA*,” Murray Energy CEO Robert Murray stated that he had given you “an action plan, very early, about three and a half pages about what [you] needed to do in [your] Administration.” *Frontline* reported that at the top of the list was repealing the Clean Power Plan. You recently nominated longtime Murray Energy lobbyist Andrew Wheeler to serve as Deputy Administrator of the Environmental Protection Agency. That nomination is expected to come before the Senate Environment and Public Works Committee within weeks.

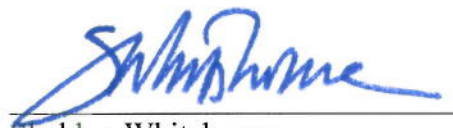

So that the two of us and other members of the EPW Committee may have all relevant information to consider Mr. Wheeler’s nomination, we request a copy of Robert Murray’s/Murray Energy’s “action plan” not later than November 3, 2017.

Thank you for your prompt attention to this request.

Sincerely,

Thomas R. Carper  
United States Senator

Sheldon Whitehouse  
United States Senator
